

RETURNS POLICY

We want every customer to be completely satisfied with every item that you purchase from Vericom Global Solutions. If you're not completely satisfied with a product, Vericom will gladly exchange or refund the purchase within 30 days of the sale date, except as noted below. For any exchange or refund, we need the original receipt, and the product must be in its original condition, including the box, Universal Product Code (UPC) bar code, packaging, and all accessories. Any merchandise missing the original UPC bar code can't be returned. Refunds are issued in the original payment type.

The value of missing items (e.g., original box, packaging material, contents, accessories and/or manuals) or damage to a returned product (i.e., any product not in "like new" condition) will be deducted from the credit amount of any return. For exchanges, we will exchange what the customer returns (e.g., box for box, manual for manual, etc.). Individual package components may be exchanged if defective. Any product that is returned without the promotional item(s) included with the original transaction will have the value of the promotional item deducted from the refund amount. Any product that was purchased when a mail-in rebate was available on the purchase is subject to having the amount of the rebate deducted from the refund amount.
