

Category 6 Outdoor Shielded Waterproof Coupler- Long

Applications

This Category 6 RJ45 shielded female waterproof coupler is ideal for connecting two booted or unbooted Category 6 shielded cable assemblies together, in harsh industrial or outdoor environments requiring an IP67 level watertight connection. This coupler is suitable for use with 10BASE-T, 100BASE-T, and 1000BASE-T connections.

Description / Specifications

This Vericom Category 6 RJ45 shielded female waterproof coupler is perfect for outdoor connections to cameras, sensors, motion detectors, or entering an outdoor enclosure with a waterproof connection. The connector will support Gigabit ethernet speeds with Category 6 cable and can be used for 10GBASE-T for limited distances. This product is the longer version of *MCP6S-04683* and is useful for when you need to connect booted patch cords. This coupler is composed of a flame- resistant, water resistant, UV resistant material perfect for outdoor environments, and is shielded to prevent signal interference.

Features & Benefits

- Suitable for booted or unbooted CAT6 shielded patch cables
- Gold plated contacts with integral PCB for maximum performance
- · Compact size, sleek, professional appearance
- PA66 Nylon is flame-resistant and UV-resistant for longevity
- · Solid body made by injection and cold compression
- · Rubber gasketed moisture barrier
- · Shielded to prevent signal interference
- · Packaging: Polybag, Sold Individually

Standards Compliance

- RoHS Compliant
- CE
- IP67 Weather Resistant
- UL94V-0

Category 6 Outdoor Shielded Waterproof Coupler- Long

Ordering Information

Item Number	Description
MCP6S-04684	CAT6 Outdoor Shielded Waterproof Coupler-Long

Construction

Housing: Nylon PA66, UL94V-0 fire retardant

Contact Needle: Gold-Plated over Phosphorous Bronze

Mechanical

Wire Compatibility: 3 ~ 8 mm Mating Life Cycle: Min 750 cycles Electrical Current Rate: 1.5 Amps Voltage Rate: 125VAC, 75VDC

Environmental Conditions

Operating Temperature: -40 °F to 248 °F (-40 °C to 120 °C) Storage Temperature: -40 °F to 248 °F (-40 °C to 120 °C)

Shield Material: Nickel Plated Over Copper Alloy

Waterproof Ring: Silica Gel

Withstanding Voltage: AC1000V 50Hz or 60 Hz 1 Minute

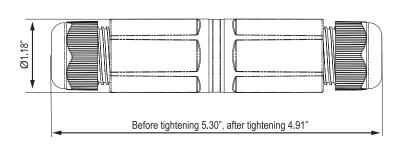

Contact Resistance: <10MΩ

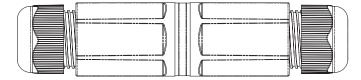

Insertion Force: 900g Plug Retention: 7.7 kg

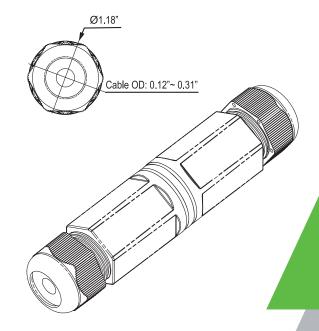

Atmospheric Pressure: 86 ~ 106Kpa

Humidity: ≤90%
