

About Us

Vericom Global Solutions is a leading provider of network infrastructure and connectivity solutions serving enterprise, government, and operator markets. Headquartered in Knoxville, TN, we deliver best-in-class products and technologies to customers in more than 30 countries worldwide.

We deliver a comprehensive product portfolio designed to meet our customers' network infrastructure needs in an increasingly connected world through our global network of distributors and integrators.

Beyond our advanced design, engineering, and manufacturing capabilities, we have become the partner of choice for a diverse global client base. Our customers rely on us for consistent performance, exceptional quality, and a standard of excellence unmatched across the industries we serve.

Reasons to Choose Us:

- Industry Compliance
- Partnership Programs
- Custom Configurations
- Top Quality
