CAT 6A Solutions

Vericom® Copper Systems

Vericom's Copper Systems are designed to provide the highest level of performance possible at the best value. For your convenience, we offer two separate alternatives to suit your specific application.

VGS™ (Vericom Global Solutions)

Our full project solutions line, designed with the future of your business in mind. This line has been tested and certified to meet or exceed the most current industry standards and is guaranteed to stand the test of time.

VGC™ (Vericom Global Commodity)

Our global commodity line provides an economical price savvy solution, designed, tested and certified to suit current light commercial or residential applications.

Category 6A Solutions

Our Category 6A Solutions support 10GBASE-T Ethernet up to 100 meters per the standard, 1000BASE-T(Gigabit Ethernet), 100BASE-T (Fast Ethernet), 155 Mb/sATM, 622 Mb/s ATM, 1.2 Gb/s ATM, CDDI, ATM, Token Ring, Digital video and broadband/baseband analog video, Voice over Internet Protocol (VoIP). Category 6A is backwards compatible with CAT6 and Category 5e systems as well as IEEE 802.3af/802.3at and 802.3bt Type 3 and Type 4 for PoE applications.

Our line of Category 6A Solutions includes: Bulk Wire, Cable Assemblies, Patch Panels, Keystone Jacks, and Copper Cabling Accessories.

For more complete, detailed specifications and information on an individual product please request a specification sheet from a Vericom representative or visit our website at vericomsolutions.com.

Brand Values & Philosophy

We strive every day to make Vericom the world's most desirable network infrastructure and connectivity solutions provider to work for and partner with. Our desire to be the best in our field by offering quality products with integrity is a driving force to provide our customers with product offerings that remain relevant throughout the ever-changing data technologies and communications community.

We offer "The Future Of Technology- Today."

Our Customer Support Team is available during our normal business hours:

Monday - Friday: 8:00 a.m. - 8:00 pm EST

Contact us with any questions you may have regarding our products or services at:
Phone 865-671-4455

VGS6A™ Category 6A F/UTP, LP Rated Ethernet Cable, Shielded Plenum

Vericom VGS6A™ Category 6A F/UTP, LP Rated cable supports the most demanding current and future high-end environments such as data centers, server farms, digital and analog voice, high resolution video and data streaming and other demanding bandwidth intensive applications that require a class EA solution with Power over Ethernet (POE+) capabilities.

This LP Rated cable is offered in plenum and is designed to meet and exceed ANSI/TIA-568.2-D Category 6A and ISO 11801 Class EA electrical performance requirements for frequencies up to 500 MHz to ensure interoperability with all standards compliant connectivity. The 1000ft Reelex™ pull box of cable is constructed with 23 AWG solid conductors in a four pair configuration, separated with an integral cross filler, and surrounded by a continuous foil with a drain wire inside the jacket to improve alien crosstalk performance and resist any external noise emitters.

VGS6A™ Shielded Category 6A RJ45 Keystone Jacks

Vericom VGS6A™ Shielded Category 6A RJ45 Keystone Jacks support 10GBASE-T, 1000BASE-T (Gigabit Ethernet), 100BASE-T (Fast Ethernet), 155 Mb/s ATM, 622 Mb/s ATM, 1.2 Gb/s ATM, Digital video and broadband/baseband analog video, Voice over Internet Protocol (VoIP) and are backwards compatible with Category 6 systems. Compatible with IEEE 802.3af/802.3at (48 cables in a bundle) and 802.3bt type 3 and type 4 (24 cables in a bundle) PoE applications.

These Shielded Category 6A RJ45 Keystone Jacks meet and exceed ANSI/TIA-568.2-D Category 6A and ISO 11801 Class E electrical performance requirements for frequencies up to 500 MHz. These keystone jacks manage crosstalk, provide superior performance with headroom for even the toughest installs.

Available in white with shielding but additional colors available by special order. To maximize performance, combine with our Vericom patch, panels, patch cords and bulk cable.

The Future Of Technology - Today.

VGS6A™ CAT6A Unshielded Patch Panels

Vericom VGS6A™ patch panels mount to all standard 19" racks, cabinets, and wall mount brackets, and are available in 24 Port (1 RU) and 48 Port (2 RU) (rack unit) configuration.
These VGS6A™ CAT6A Unshielded Patch Panels provide superior performance for data centers and other high-bandwidth intensive environments requiring a 10G Base-T standard and PoE compatability. These are EC verified (2025-276) to perform with a standard RJ-45 interface, and feature contacts with minimum 50 microinches of gold, a standard 110 punchdown for terminating horizontal cable, universal labeling for T668A and T568B wiring, and a removable cable support bar. These patch panels are capable of supporting PoE/PoE+ over 100 meter channels with 10 meters of 24 AWG patch cables included in the channel.

VGS6A™ Category 6A Patch Cables

Vericom VGS6A™ Category 6A U/UTP patch cables support the most demanding current and future high-end environments such as data centers, server farms, digital and analog voice, high resolution video and data streaming and other demanding bandwidth intensive applications that require a class EA solution with Power over Ethernet (POE+) capabilities.

These patch cables support 10GBASE-T, 1000BASE-T (Gigabit Ethernet), 100BASE-T (Fast Ethernet), 155 Mb/s ATM, 622 Mb/s ATM, 1.2 Gb/s ATM, Digital video and broadband /baseband analog video, Voice over Internet Protocol (VoIP) and is backwards compatible with Category 6 systems. Compatible with IEEE 802.3af/802.3at (48 cables in a bundle) and 802.3bt type 3 and type 4 (24 cables in a bundle) PoE applications. These cables feature a modern snagless clear boot that protects the staggered RJ-45 plug design with 50 microinches of gold plating for maximum system reliability.

We offer two variations of Category 6A Patch Cables to suit your specific needs:

VGS6A™ Category 6A UTP Patch Cables

These cables utilize 24 AWG stranded conductors in a four pair unshielded configuration for maximum durability. VGS6A Patch Cables are rated CM and meet applications up to 10 Gigabit Ethernet up to 100 meter channels and supports PoE/PoE+ over 100 meter channels with 10 meters of 24 AWG patch cables included in the channel. The boot design is shortened to allow easier handling from patch panel to horizontal cable managers.

28Flex™ Category 6A UTP Patch Cables

These cables utilize 28 AWG stranded conductors in a four pair unshielded configuration for maximum durability and flexibility. 28Flex™ Patch Cables are rated CM, and meet applications up to 10 Gigabit Ethernet. This patch cable supports PoE/PoE+ over 92.5 meter channels with 10 meters of 28 AWG patch cables included in the channel, and supports PoE/PoE+ over 96 meter channels with 6 meters of 28 AWG patch cables included in the channel. The smaller diameter cable design reduces bundle sizes to improve airflow in high density applications to reduce cooling costs and potentially extend the life of active electronics

VGS™ One Step Termination Tool

The ideal solution for terminating our VGS6A™ CAT6A Keystone Jacks, the VGS™ One Step Termination Tool saves time and improves accuracy by seating and terminating all wires simultaneously with a quick, easy squeeze of the handle. The integrated blade cuts and removes excess wire after seated in the connector, eliminating any need for extra trim steps. Built for simple one-handed operation, with an ergonomically designed handle for maximum grip and comfort, this termination tool minimizes hand fatigue and helps reduce installation stress.

VGC™ Deluxe 66 / 110 Punch Down Tool

This deluxe 66/110 type punch down tool enables you to terminate and trim cables effortlessly, to quickly and easily terminate our VGS6A™ CAT6A Patch Panels and Keystone Jacks. Impact absorbing grip reduces operator stress for installers with a high volume of terminations. Adjustable High/Low actuation setting accommodates their operator's preference.

VGC™ CAT6A Ratcheting Modular Plug Crimping Tool

Designed specifically for our CAT6a shielded modular plugs, this heavy duty ratcheting modular crimping tool is the perfect solution when working with high performance, larger OD cables that are tougher to terminate due to larger wire gauges, thicker, harder insulation on the conductors, and pair-separating splines. With a ratcheting mechanism that provides a consistent and complete crimp cycle, and high-leverage, ultra stable consistent, repeatable terminations, this is the ideal tool for the professional installer.

VGC™ Modular Plug Crimping Tool

Ideal for use with our CAT6A unshielded modular plugs, this heavy-duty modular crimping tool is the perfect solution when working with high performance, larger OD cables that are tougher to terminate due to larger wire gauges, thicker, harder insulation on the conductors, and pair-separating splines. This modular crimping tool was designed for the professional installer providing a high-leverage, ultra stable platform for consistent, repeatable terminations.

Need Faceplate Mounting Brackets?

Vericom offers Single Gang and Dual Gang Retro Fit Mounting Brackets. Ask a Vericom Representative or visit our website at vericomsolutions.com for details.

Cable Routing & Management Solutions

Ladder Rack

The VLR Series Cable Ladder Rack System mounts to the top of cabinets and open frame racks to provide overhead cable routing between aisles or across an open span. With a wide variety of accessories for mounting and connecting ladder sections, Vericom offers a complete and configurable solution that will keep your cable bundles organized and protected.
For more information, please visit our website.

Wire Basket Tray

Vericom's Wire Basket Tray System is a highly configurable and adaptable cable runway solution designed to meet the needs of a variety of applications, from short cable runs in a data closet to high-density data center installations. Featuring a rigid construction and a corrosion resistant powder coated finish, our trays offer the strength and durability to protect valuable network communications cabling, simplify system extensions, and reduce the cost of maintenance.

For additional information on our extensive portfolio of available tray sizes, splicing accessories, and support structures, please visit our website.

Wall Mount Solutions

Vericom Wall Mount Solutions securely mount communications cabling, networking gear, and related accessories to a wall when floor space is at a premium. Designed for a variety of AV, IT, telecom, datacom, network, and security applications, they are the perfect choice for small work areas where a full server rack or cabinet isn't feasible or warranted. Our portfolio of solutions includes flat-packed, light duty cabinets, fully welded cabinets for high density installations that support up to 350 lbs., and open-frame wall mount racks and brackets for specialty installations.

*For more details and available size options, visit our **website**.*

Featured Wall Mount Solutions

VW4 Series High Density Swing Out Wall Mount Cabinets

Built for heavy duty, large-scale applications, this cabinet has a fully welded 14 gauge steel frame that supports up to 350 lbs. of networking equipment. Features include a 90-degree swing-out hinge for easy access to cables and connections, heavy duty hinges and latches, and six knockouts in the top and bottom of the rear section for cable management flexibility. Available in two depths and four heights.

VW5 Series Wall Mount Racks

Vericom's Wall Mount Racks are a cost-effective solution for storing rackmount IT equipment in environments that don't require a lockable cabinet. The open frame design provides easy access to equipment with 18" of equipment depth and standard 19" mounting rails. This rack features 10-32 tapped holes with printed RU markings, and 16" keyhole spacing for mounting to a wall. Available in three heights. 8U and 15U offer a weight capacity of 150 lbs. 30U option holds up to 125 lbs.

VB2 Series Vertical Wall Mount Bracket

This Vertical Wall Mount Bracket allows servers and other networking equipment to mount vertically and flush to a wall, perfect for environments with limited space. Featuring a 75 lb. weight capacity, universal cage hole mounting and an opening in the rear panel for in-wall cable access, this bracket has the versatility to support a wide variety of equipment.

Floor Standing Solutions

Colocation Cabinets

Network & Server Cabinets

Vericom's VC5 Series Network and Server Cabinets provide an integrated, customizable solution for data center buildouts, network rooms, or IT closets. The feature-rich, robust design can be custom-configured with Vericom accessories pre-installed, speeding deployment and reducing on-site waste.

Available as an open frame or complete enclosure in over 20 size combinations, with six door options and two colors to choose from, the VC5 platform offers the flexibility and versatility to meet the demands of a wide range of installation environments.

*For additional information and a complete list of available options, please visit our **website**.*

SOHO Cabinets

Like most colocation cabinets, Vericom's VC5 Colocation Cabinet is designed to securely store ICT equipment for two tenants within the footprint of a single cabinet. However, the VC5 Colocation Cabinet is also engineered to convert back to a standard, single tenant cabinet to accommodate changes in future business needs. Colocation providers are able to cost-effectively service a wide range of tenants by maximizing space utilization and minimizing cabinet expenditures.
