

VGC™ Commercial Grade Electrical Tape

Features & Benefits

- Suitable for high voltage, indoor or outdoor general purpose wire splicing
- Primary electrical insulation for all wire and cable splices
- Flame Retardant
- Cold Resistant
- Lead-Free
- Resistant to sun, water, oil, acids, alkalis, and corrosive chemicals
- Multiple widths available
- Packaging: Sold Individually

Construction

- Product Material:** Flame Retardant Polyvinylchloride (PVC)
- Adhesive Material:** Rubber-Based
- Lead-Free:** Yes
- Product Width:** Varies By Item Number
- Product Length:** 60 ft
- Product Thickness:** 7 mil (0.18 mm)
- Color:** Black

Voltage

UL Voltage Rating: 600V

Physical

- Adhesion (oz/in (N/cm)):** 20 (2.6)
- Tensile (lb/in (N/cm)):** 18 (32)
- Elongation:** 250%

Temperature

Operating Temperature : -18°C (0°F) to 80°C (176°F)

Standards Compliance

- UL Listed (UL510)
- MIL-I-7798A
- CSA 22.2

Applications

This commercial grade electrical tape is ideal for general purpose, indoor or outdoor use to insulate wire and cable splices up to 600 volts in all mechanical and electrical applications. This tape can also be used for wrapping wire harnesses and for insulating degaussing coils.

Description / Specifications

This black, 7 mil PVC commercial grade electrical tape is weather resistant and flame retardant.

Ordering Information

Description	
Commercial Grade Electrical Tape - Black	
Product Dimensions	Item Number
3/4" x 60 ft x 7 mil	ELCTP-04788*
1" x 60 ft x 7 mil	ELCTP-12851
1.5" x 60 ft x 7 mil	ELCTP-12852
2" x 60 ft x 7 mil	ELCTP-12853
