

Ceiling Mount J-Hooks

Features

- Includes angle bracket for mounting to ceilings or other flat horizontal surfaces
- Provides support for CAT5e, CAT6, CAT6A, and other low-voltage cables
- High-quality galvanized steel
- Maximum load up to 60 lbs.
- Available sizes: 3/4" 1-5/16", 2", and 4"
- Includes retainer clip (except 3/4")

Description

Vericom's galvanized steel J-hooks are a versatile and cost-effective solution for organizing and supporting low-voltage cables in commercial and industrial environments. Perfect for managing cables in drop ceilings, under raised floors, or along walls, these hooks provide reliable cable management wherever you need it.

- Protects cable integrity: The wide, smooth, and beveled base prevents sharp bends, stress, and kinks that can damage sensitive data cables.
- Durable and rust-resistant: Constructed from high-quality, galvanized steel, our J-hooks are built for long-lasting performance.
- Flexible and scalable: The non-continuous design allows for flexible cable routing in spaces that can't accommodate traditional cable trays or raceways.
- Quick and easy installation: Mount to walls, beams, ceilings, or threaded rods using various attachments, such as beam clamps, angle brackets, or clips.

ITEM NUMBER	DESCRIPTION	A (Dia)	B	C	CAPACITY		CARTON
