

Cross Bar

Product Specifications

Material: High-strength carbon steel

Finish: See table below

Dimensions (W x H): 2" x 0.8"

Weight: see table below

Compliance & Standards: IEC 61537

Selling Unit: 1 piece

Description

Cross bars can be suspended from the ceiling to provide overhead support for basket tray runs. Installation is simple, with locking tabs securing trays from 4" (100mm) to 24" (600mm) wide to the cross bar without the use of screws or clamps. Compatible with threaded rod up to 3/8" diameter (not included).
