

SOHO / Remote Office Cabinets

Description

Vericom SOHO / Remote Office Cabinets are specifically designed for small offices and remote locations where space is a premium. Fully assembled and ready to deploy, they include all the features of a full-size server cabinet, conveniently sized to fit under or on top of a desk or counter. With a maximum rail depth of 29.5", these cabinets are capable of storing servers, networking switches, and a variety of other security and AV equipment, while high-flow vented doors provide passive cooling to keep equipment from overheating.

Benefits

Security & Protection

- Locking doors and side panels prevent unauthorized access to equipment
- Two sets of rails provide a stable mounting structure
- Doors and side panels are grounded to the cabinet frame

Flexibility

- Includes both casters and adjustable leveling feet for both fixed and mobile installations
- Multiple cable entry slots provide greater flexibility during installation
- Mounting rails are adjustable in ¼" depth increments to match a variety of equipment sizes
- Front door, rear door and side panels are all removable for convenient access to equipment

High Capacity

- Available in three sizes to fit in a variety of environments where space is limited
- Deeper than most wall cabinets - 29.5" maximum rail depth can handle servers and other large equipment
- Robust design can support 1,500 lbs of equipment

Key Features

- Sized to fit under a desk or counter
- Server depth
- High-flow vented doors
- Locking door and side panels

SOHO / Remote Office Cabinets

Side panels are lockable and removable for easy access to equipment

Removable panel in top for installation of optional fan unit for additional cooling
