

VGC™ Midsize Single Gang F-81 & RJ14 Combo Faceplates

Description / Specifications

Vericom midsize F-81 & RJ14 combination faceplates are molded out of proprietary impact resistant plastic and are designed to accept a coax connector and either RJ-11 or RJ-14 connectors. These faceplates provide quick connection and support for an F-81 coaxial cable connection and a CAT3 connection for up to two phone lines. These midsize faceplates come complete with mounting screws.

Features & Benefits

- Compatible with F-81 connectors and either a standard RJ-11 or an RJ-14 connector
- Midsize faceplates hide irregular drywall cuts or flaws around outlets
- Flush mounting for aesthetic look
- Supports an F-81 connections and up to two phone lines
- Includes screws for mounting
- Available in White, Ivory or Light Almond

Applications

These versatile midsize single gang F-81 & RJ14 combination faceplates combine the connectivity for most satellite, cable, and CCTV applications along with telephone applications in a single gang size and are ideal for situations requiring a midsize faceplate in a flush mount.
