

Midsize Single Gang F-81 Faceplates

Description / Specifications

Vericom midsize F-81 faceplates are molded out of proprietary impact resistant plastic and are designed to provide quick connection and support for a single or dual F-81 coaxial cable connection. These midsize faceplates come complete with mounting screws.

Features & Benefits

- Pre-installed single or dual F-81 connectors
- Midsize faceplates hide irregular drywall cuts or flaws around outlets
- Flush mounting for an aesthetic look
- Includes screws for mounting
- Available in White, Ivory or Light Almond

Applications

These versatile midsize single gang F-81 faceplates offer connectivity for most satellite, cable, and CCTV applications requiring a single gang size and are ideal for situations requiring a midsize faceplate with a flush mount.
